## BUSINESS OWNER'S POLICY

A BOP can help protect your accounting business much the same way that a homeowners policy protects your home and personal possessions. The Hartford's BOP combines these essential coverages to provide a cost-effective solution to help safeguard your business:

- **Business Property insurance** to help protect the property you own, lease or rent
- **Business Liability coverage** to help protect your business in the event it is responsible for causing harm to a person and/or damage to property
- **Business Income coverage** to help protect lost income if your business is forced to close due to direct physical loss or damage to its premises resulting from a covered cause of loss

## OPTIONAL COVERAGES THAT KEEP YOUR BOTTOM LINE TOP-OF-MIND<sup>1</sup>

In addition to among the most robust liability and property coverages available, The Hartford also offers a wide range of optional coverages that can help tailor your insurance program.

**Professional Liability** Yours is a high-pressure business. Clients look to you for guidance in finding unique ways to not only save them money but make money as well. This protects you, for example, in the event you're sued by a client alleging you made an error in their tax return which cost them thousands of dollars in tax penalties.

### Business Income for Off-Premises Utility Services

This coverage kicks in if, for example, business income is lost because you need to suspend operations due to loss of power, water or communication services caused by physical loss or damage to utility company property not on your premises.

**Data Breach** Helps cover the cost of things like complying with notification requirements to affected individuals, and credit monitoring (when warranted) if sensitive customer information is lost or stolen. Available options can help protect against loss of income and help pay for extortion or ransom payments associated with a data breach threat.

**Electronic Data** Pays to replace or restore electronic data that has been destroyed, corrupted or made inaccessible by a computer virus or covered cause of loss. Coverage applies on a policy year basis (similar to an annual aggregate).

**Interruption of Computer Operations** Helps cover the loss of business income and incurred extra expenses when the policyholder is unable to operate their business due to the destruction or corruption of electronic data caused by a computer virus or covered cause of loss. Coverage applies on a policy year basis (similar to an annual aggregate).

**Valuable Papers & Records** Covers the important paperwork you create such as ledgers, financial statements or employee/client files even if they are damaged by water, fire or other unexpected event.

**Stretch®** Many optional property coverages offered by The Hartford are available separately or in cost-effective packages called Stretch. You can easily tailor a program to meet the specific needs of your business.

**Employment Practices Liability (EPL)** Provides coverage if you're sued by an employee, patron or vendor alleging discrimination, sexual harassment, wrongful termination or other types of claims relating to your employment practices.

## WORKERS' COMPENSATION

For a small business like yours, one employee's absence can be felt by the whole team. It's why, for over a century, The Hartford's workers' comp program has set the standard for injured worker care, helping employees quickly return to health and productivity. The Hartford also offers XactPay,<sup>3</sup> which allows you to pay your workers' comp policy premiums based on actual payroll instead of last year's headcount, helping to manage your cash flow.
