

YOU CAN GET SO MANY THINGS IN AN INSTANT – WHY NOT YOUR POLICY DATA?

“We have a longstanding partnership with IVANS, and we’re excited to take this next strategic step in further strengthening the service we provide our agency channel,” said Jim Rogers, AVP. “Our goal is to reduce the manual steps agents need to take to confirm policy changes are live in our systems, with this new process agencies receive the download seconds – not hours – after the change is made in The Hartford’s system, so there is no need for active follow-up. The benefits of having our staff and our agency partners all working off the same information will strengthen our partnerships and enhance the insured experience.”
