

YOUR SOLUTION FOR HARD-TO-PLACE RISKS.

Alternative Market Placement (AMP), part of Nutmeg Insurance Agency, is an internal agency owned by The Hartford that offers out-of-appetite placement services.

- › AMP places business outside of The Hartford for high-risk businesses (admitted and non-admitted).
- › AMP finds solutions through our network of wholesale brokers with E&S products that The Hartford cannot write.
- › AMP shops the business through our broker partners to find a carrier, working directly with insureds or with agents to get any necessary information.
- › AMP's consultative approach and expertise in specialized markets enhances servicing capabilities while providing industry-leading experience.

HOW YOU BENEFIT

- › We specialize in hard-to-find markets through wholesale brokers.
- › We offer end-to-end policy service with The Hartford's Account Managers. This includes certificates of insurance, all mid-term servicing, handling of a complex renewal process, and My Account access for the business owner.
- › Simplified billing for customers with one bill combining all policies with multiple payment options and no premium financing.
- › Dedicated and licensed Account Managers to consult on coverage recommendations, partnership on Diligent Efforts and work hand-in-hand with the agent.

*This is a broad countrywide perspective. Minimum premiums may vary by state with each risk ultimately qualifying based upon its own individual underwriting merits.

**Provided we have all the information needed to underwrite the account and the risk falls within our Wholesaler/MGA's binding authority. Higher exposure and limits will typically need to be submitted through Brokerage. Brokerage business is a 7-day minimum turnaround and requires hard copy currently valued loss runs. Umbrella turnaround varies by limits requested, and each layer must have the underlying layer(s) quoted first.
