

# REDUCING WORKPLACE RISKS WITH AUTOMATED TEMPERATURE MONITORING

Through an arrangement with Bayside Operations Technology, you're eligible to receive a discount on the **AI Temperature Detection System (AITDS)** to help reduce the risk of COVID-19 exposure at the workplace.

## BRINGING BACK FACE-TO-FACE WITH EASY TO USE AND EFFECTIVE TECHNOLOGY

Join the thousands of businesses throughout the United States that are already using the AITDS to help them stay safe and healthy on the job. Whether you're a small business or a Fortune 500 company, this contactless and automated device provides reliable temperature detection that helps keep your business safe.

The AITDS reads individuals' temperatures. Using facial recognition, it can also detect face coverings and can ask visitors to put them on before entering, making it easier to comply with local regulations to help mitigate the spread of COVID-19.

-  **Fast:** Contactless screening takes 2-3 seconds.
-  **Accurate:** Reliable temperature readings and facial recognition.
-  **User Friendly:** It works, you focus on something else. No risk to employees manually taking temperatures.
-  **Instant Notification:** Immediately get informed via live stream, email, or text when someone fails to meet requirements for entry.

## Cost Effective Options to Fit Your Budget and Business Needs

Depending on the needs of your business, Bayside Operations Technology has developed two different solutions to fit the needs of different customers. Regardless of the version you choose, your business is in full control over what data you decide to capture and store.

The **V2 Lite** is the best option for businesses that are looking to safely and quickly detect temperatures, but do not need facial recognition functionality.

The **V2 Pro** is the best option for companies with more complex needs. The V2 Pro has AES128 encryption at the device level and at rest, and HTTPS data transfer to meet HIPAA guidelines. You have full control over data logging and retention. And it operates inside and outside - in rain or shine!

PRODUCT FEATURES	V2 LITE	V2 PRO
<b>Price including pedestal</b>	<b>\$2,098.00</b>	<b>\$3,598.00</b>
FDA-registered	✓	✓
Medical-grade sensor with +/- 0.5 F variance	✓	✓
Error detection algorithm to account for ambient temperature	✓	✓
Notification (Livestream)	✓	✓
Logging of identification, time stamp and temperature for employees and guests		✓
Customization of logo and alert messaging (text and email) on device		✓
IP65 water and dust resistance, operable in direct sunlight		✓
Auto height adjustment		✓
