EVERYTHING YOU NEED TO SHINE A LIGHT ON PREMIUM AUDIT.

THERE'S MORE IN POLICY DOWNLOAD

No need to manually update your AMS with final audit results for workers' compensation and Spectrum® policies. It saves time and makes your agency more efficient.

PREMIUM AUDITS ARE AS EASY AS E-B-C

Help your customers with upcoming and in-progress premium audits. The EBC puts all the answers at your fingertips. Here, premium audit information is usually posted one day after it's processed, and you'll see daily updates after that.

Access the same resources your customers do – plus all of this:

Statement of premium adjustment

> Shows earned premium as a result of a premium audit

> Includes statements for completed premium audits for the past 10+ years

Premium audit summary

> Gives an overview of the estimated versus actual exposure

Risk descriptions (for telephone and physical audits)

> Offers a detailed account of the insureds' business operations, including:

  » Labor force distribution

  » Ownership information

  » An explanation of significant exposure variances

The Buck's Got Your Back®

THE HARTFORD

DOWNLOAD AUDIT TRANSACTIONS

Workers' Comp and Spectrum® Policy Download Audit Transactions gives you the option to receive policy download audit transactions into your AMS.

How It Works

› Register for this optional feature in the EBC

› Receive final and revised audit transaction data including:

 » Audit method type

 » Premium change

 » Updated payroll amounts applied to the expiring policy term

Are You Eligible?

It's available to any producer code currently registered for and receiving Workers' Comp and Spectrum Policy Download.

AUDIT STATUS MESSAGES

This feature delivers notifications to your AMS when a customer is at risk of having their audit estimated due to: No response, failing to complete it, or reopening it.

These notifications provide transparency into your customer's audit status so you can intervene when appropriate to help them avoid the negative outcome of an estimation.

Eligibility

Since The Hartford just developed this new capability, it's not yet supported by all AMS providers. AMS providers who support it now include: Vertafore Sagitta, AMS360, QQ Solutions, Applied EPIC 2019 or higher, Nexsure, HawkSoft and IVANS. We're working with other AMS partners to support audit status messages in the future.

Check to see if you've opted in to Audit Transactions and Audit Status Messages in your **Automation Dashboard.** And if not, your **EBC System Administrator** can turn it on for you.

TAKE THE EASY WAY TO PREMIUM AUDIT SUCCESS.
