

A smarter approach to risk: captive solutions designed to perform

Captives on the Rise

As market volatility, rising loss costs and capacity constraints persist, more middle and large businesses are turning to captives for greater control and predictability.

Today's captives are strategic tools that reward strong performance, encourage proactive risk management and support long-term stability.

Overview & Types

Captives are alternative insurance structures that give businesses a more active role in financing their own risk. They allow organizations to retain a portion of losses, gain greater claims transparency and better align insurance costs with their risk profile.

Captives can be structured in several ways, including:

Group or Association Captives:

multiple organizations share risk

Single Parent Captives:

owned by one organization

Agency Captives:

formed and supported by agents or brokers on behalf of their clients

Important Considerations for Businesses

- **Financial commitment:** Captives require sufficient premium and capital to support potential losses and regulatory needs.
- **Operational structure:** Captives involve underwriting, claims and compliance—typically supported by experienced captive managers.
- **Regulatory oversight:** Captives operate under licensed domiciles with ongoing governance and reporting.
- **Risk alignment:** Organizations retain risk and must be comfortable managing loss variability.

Open Group Captives: Program Profiles

- Breckpoint
- Capstone Insurance Company, Ltd.
- Hartbuild, IC
- Haven Re
- Legacy
- Millenium
- The Heartland Group
- TRIP
- WiN

Breckpoint	Managed by Acrisure	Est. 2019
Description	Breckpoint is a member-owned group captive designed for Middle and Large Business accounts seeking tailored asset protection, cost efficiency, and greater control through performance-based pricing. The program is primarily heterogeneous, supporting a diversified portfolio of qualified commercial risks nationwide, and also includes dedicated Transportation and Construction divisions, each with underwriting criteria and pricing structures aligned to those industries.	
Lines of Business	WC, GL, AL, APD, OCP & RRP	
Retention	\$300K	
Industry	Heterogeneous (including dedicated Transportation and Construction divisions)	
Target Risk Profile	Supports a broad range of risks aligned with The Hartford's Middle & Large Business appetite, including General Industries, Programs, Construction, Complex Liability Solutions. The program also supports trucking risks with strong safety cultures, including exceptional fleet safety programs, favorable CAB scores, and required cameras/telematics. Minimum premium of \$350k.
